Benefit Payment Example for High Plan

The example below assumes Susan sought treatment at a group policyholder-designated facility and is therefore eligible for additional payment under the Benefit Supplement Rider.

Susan has chest pains at home, and after contacting her doctor, she is instructed to head to her local hospital. Upon arrival, the doctor examines Susan and advises that she requires immediate admission to the Intensive Care Unit for further evaluation and treatment. After two days in the Intensive Care Unit, Susan moves to a standard room and spends two additional days recovering in the hospital. Susan was released to her primary care physician for follow-up treatment and observation. Her primary doctor is now keeping a close watch over Susan's overall health. Depending on her health insurance, Susan's out-of-pocket costs could run into hundreds of dollars to cover expenses like insurance co-payments and deductibles. MetLife Group Hospital Indemnity Insurance payments can help cover these unexpected costs or in any other way Susan sees fit.

Covered Benefit	High Benefit Amount
Regular Hospital Admission (1x)	\$1,000
ICU Supplemental Admission (1x)	\$1,000

Benefits paid by MetLife Group Hospital Indemnity Insurance	\$2,800

Benefit amount is based on a sample MetLife plan design. Plan design and plan benefits may vary.
